### Course description

This course will help you develop your oil painting by taking the building of a picture layer by layer. The following processes will be addressed:

Drawing and composition. Make preparatory sketches. Learn to compose a picture on the canvas and control the drawing that will form your first layer.

Blocking in. Choose your colours for blocking in to define the composition and drawing.

Mixing colour and using the palette. Control the colour mixes, harmony and tonal values to build your painting.

Also an opportunity to explore:

Glazing. Refine light and shadows – add colour cast, softness and definition.

Brushwork. Highlights, low lights and impasto.

The course will cover two still life arrangements, each with their own approach supported by prepared examples for each stage. The aim is to take you through the process for each painting to achieve optimum results. All three arrangements will be set up throughout, and the class will move around to allow good proximity to the subject matter.
